

## May 14, 2021 COVID Update

On May 14, 2021 the Centers for Disease Control and Prevention (CDC) issued an interim Public Health Recommendation for Fully Vaccinated People which includes wearing masks. These guidelines state:

“Fully vaccinated people no longer need to wear a mask or physically distance in any setting, except where required by federal, state, local, tribal, or territorial laws, rules, and regulations, including local business and workplace guidance.”

The State of Wisconsin current guidance is to continue to wear masks in a medical facility. **As the Cedarburg Veterinary Clinic, s.c. is a medical facility, we will continue to require mask wearing when entering the building.** However, we will expand admittance to our facility to 2 customers wearing masks along with the patient(s).

*We understand that this may not coincide with your individual beliefs and changes in how we conduct business may not always be easy; however, please be patient and kind to our staff as we begin our rollout plan to return to a more regular business environment.*
